

*“As A Certified
GAF Master Elite™
Roofing Contractor,
We’re Your
Safest
Choice!”*

The Weather Stopper Integrated Roofing System has earned the prestigious Good Housekeeping Seal, which means that Good Housekeeping stands behind the products in this system. (Refer to Good Housekeeping Magazine for its consumer protection policy.)

Getting a new roof shouldn't be an exercise in pain and frustration!

(Sadly, for many homeowners it's exactly that)

And the biggest challenge is choosing the right roofing contractor to do the work.

To help make your decision easier, our company has joined an exclusive factory-certification program sponsored by GAF Materials Corporation — North America's largest roofing manufacturer. Here is what that means for you...

GAF Has Asked Us All Of The Tough Questions — So You Don't Have To

Asking the right questions is the key to selecting the right contractor. To become a certified GAF Master Elite® roofing contractor, we had to show that we are:

- Fully licensed in our state (or focal area) to perform roofing work*
- Adequately insured for your protection
- Have a proven reputation for providing quality roofing services throughout the community
- Committed to ongoing professional training to ensure quality installation

Because of GAF's stringent standards, *only the top 2% of all roofing contractors have qualified as Master Elite® contractors!* Choosing us is your assurance that you'll be dealing with a quality, reputable, and dependable professional contractor — not some "fly-by-nighter."

Factory-Certified Installation

To ensure your total satisfaction, our company has been provided with extensive training materials developed by GAF's technical experts — allowing us to stay current in the latest roof installation techniques. In fact, every one of our foremen and installers is trained using GAF's Quality Assurance Roofing Educational Program.

Superior Protection

Most people think that a new roof is nothing more than just banging up some shingles. We know better — so we recommend GAF's Weather Stopper® Integrated Roofing System™. The Weather Stopper® system offers you the best protection against a variety of all-too-common roofing problems. Plus, each component of the Weather Stopper® System has earned the prestigious Good Housekeeping Seal!

"Worry-Free" And "Hassle-Free" Warranty Options

Because of our unique training and factory-certified status, roofs we install are eligible for special warranties — all backed by GAF's financial clout as

North America's largest roofing manufacturer. After all, a warranty is only as good as the manufacturer that stands behind it. With a GAF roof, you know that you will be covered throughout the warranty period — without fail! Ask us about which warranty option would be right for your home.

Financing Options

Need assistance? We may be able to provide a special financing program that makes buying your new roof even more affordable — just ask!

Your Safest Choice

Don't trust your biggest asset to just any contractor. As a factory-certified Master Elite® contractor, we're your best and safest choice!

*Applies in areas where licensing is available

Note: Certification is related only to installations covered by GAF enhanced warranties.
